## EDUCATION

**B.Sc. Statistics**  
University of Ilorin, Nigeria  
2022 to July 2026 (Expected)

**National Diploma in Statistics**  
Kwara State Polytechnic, Ilorin  
2021 · Upper Credit

## TECHNICAL SKILLS

### STATISTICAL SOFTWARE

|       |      |   |
|-------|------|---|
| STATA | SPSS | R |
|-------|------|---|

### PROGRAMMING & DATA

|        |     |          |
|--------|-----|----------|
| Python | SQL | Power BI |
|--------|-----|----------|

### DATA SCIENCE & ML

|         |         |                  |
|---------|---------|------------------|
| Pandas  | NumPy   | Matplotlib       |
| Seaborn | Jupyter | Machine Learning |

### PRODUCTIVITY

|          |
|----------|
| MS Suite |
|----------|

Samuel is a statistician, data scientist and machine learning practitioner with a solid academic background in statistical modelling, econometrics and quantitative research. He is skilled in R, Python, STATA, SPSS, SQL and Power BI, and works comfortably with data science libraries such as Pandas, NumPy, Matplotlib and Seaborn. He has built dashboards, cleaned large datasets and produced analytical reports in a professional setting, and is eager to bring his technical and analytical skills to bear on science and technology problems at a global level.

## EXPERIENCE

### Junior Data Analyst Quantum Analytics

May to June 2026

- Built interactive dashboards to track and present business performance metrics to stakeholders.
- Cleaned, validated and restructured datasets to maintain accuracy and analytical reliability.
- Produced written reports that translated data findings into practical recommendations for decision makers.

## CORE STRENGTHS

- Dashboard design and KPI architecture across Excel and Power BI, including DAX-driven measures and dynamic reporting.
- Statistical modelling and quantitative research using R, STATA and SPSS.
- Data wrangling and analysis in Python with Pandas, NumPy, Matplotlib and Seaborn.
- Database querying and reporting with SQL.
